CWH INTERNATIONAL

DUTY DRAWBACK &
TRADE OPTIMIZATION
cwh-international.com

Do you import and **export?**

You may be leaving money on the table.

Duty drawback lets companies recover up to 99% of eligible duties paid on imports that are later exported. CWH finds it, files it and gets it back.

$100M+ **Discovered and returned to our clients.**

Get back the duties you have already paid.

If you import goods and later export them, or export products made with imported materials, U.S. law may let you recover up to 99% of the eligible duties, taxes and fees you paid.

STEP 1
Import
Goods enter the U.S. and duties are paid.

STEP 2
Use or make
Goods are held or used to manufacture products.

STEP 3
Export
Goods or finished products leave the country.

STEP 4
Recover
Claim up to 99% of the duties back.

99%

Of eligible duties, taxes and fees can be recovered.

5 years

Claims can generally reach back five years from import.

TYPES OF DRAWBACK

Manufacturing
Imported materials or components go into products you export.

Unused merchandise
Imported goods are exported or destroyed without being used.

Rejected merchandise
Goods that are defective or not to spec are returned.

The rules are complex and the paperwork is heavy.
That is where CWH comes in. We find the opportunity, build the claim and get your money back.

Over $100M discovered and returned to our clients.

$100M+

Financial benefits delivered to clients, as reported by CWH

LEADERSHIP

Experienced trade leadership

Led by Eric Tan, previously in international trade leadership at Reynolds.

HOW WE RECOVER IT

01

CLARITY

Review import, export and production data to size your drawback opportunity.

02

SOLUTION

Build the claim strategy, documentation and filing path.

03

EXECUTION

File claims, set up the process and train your team to keep recovering on its own.

Do you have a drawback opportunity?

- ☐ Do you import materials or components used in products you export?
- ☐ Do you re-export imported goods, or return defective ones?
- ☐ Have new tariffs raised the duties you pay?
- ☐ Have you never filed a drawback claim, or not in years?

Yes to any of these? It is worth a conversation.

Figures reflect CWH-reported historical results and are not a projection or guarantee of outcomes. Drawback eligibility and recovery depend on the client's facts, data and applicable requirements.

Drawback is the first win.

Once we know your trade data, we help improve the economics of your wider global operations.
